230705

Contact: Dean DeLuccia

Phone #: 800-582-5608

Of: Framework, Inc.

Date: January 31, 2006

Case Name: Unimatic Manufacturing Co.

Case #: E20010335

RE: Mr. DeLuccia called me because the floor is black once again and no sealer.

- Approx. 09:30 AM, Mr. DeLuccia called me to inform me that the floor is black once again and, to date, no sealer was placed on the floor following the initial cleaning of the floor by Unimatic in March 2005.
- Mr. DeLuccia told me that Unimatic did a great job in cleaning the floor in March '05 but subsequently the floor is black stained once again. Mr. DeLuccia told me that he called Michael Hejazi, OSHA, and Mr. Hejazi told him that the case was closed and deferred Mr. DeLuccia's concerns to NJDEP. Mr. DeLuccia told me that Mr. Hejazi will open the OSHA case again should Mr. DeLuccia need to do so.
- Mr. DeLuccia is concerned about his workers being potentially exposed to PCB-laden hydraulic oil that is possibly upwelling through the concrete floor.
- See the e-mail dated January 31, 2006 in follow-up to this phone memo.
